Missing the Last Ten School Days for 2012-13 and Independent Study Contracts at the End of the School Year

Students should be in attendance through the last day of school, June 13, 2013, to maintain their enrollment status at their current school. Independent study contracts will not be issued the last 10 days of school. All independent study contract work must be finished and submitted by May 30, 2013 in order for work to be graded and attendance to be recorded.

If your child must leave school earlier than 10 school days (May 30) before the last day of school and does not return before the end of the school year, your child may be subject to the following consequences:

- Incomplete or lowered final grades
- Review by school/district attendance review board
- Unenrolled and placed at the bottom of the 2013-14 waitlist.

If your student is unenrolled, there may not be a space at the current school for your student to return in the fall. In this case your student may have to be diverted to another elementary school in the district. Middle and High school students may not be able to access their elective choices if they reenroll upon their return.

Please note:
In accordance with California Education Codes 48205 and 48260, and District Board Policy and Administrative Regulation 5113, any student who misses 3 or more school days without a valid excuse, as defined by AR 5113, shall be reported as truant to the District attendance supervisor.

Missing the First Three Days of School 2013-14

As you plan your summer vacation, be aware that school begins on Tuesday, August 27, 2013. Because our district is growing, schools are very full and many continue to have wait lists.

- As in the past, if your child does not attend the first three days of school, your student will be dropped from the school on Friday, August 30, 2013.

In that event, you will need to reenroll your student. A space at your resident school will not be held for your child. If there is not space at your resident school when you return, your child will be placed at the closest school based on space availability.
